GLOBAL R&D SUMMIT 2017

Destination India: R&D and Innovations for Socio-Economic & Industrial Development

6th - 7th April, 2017

The Lalit Ashok Bangalore, Kumara Krupa High Grounds, Bengaluru

Background

The catalyzing role that science & technology play in building a nation is unarguable. Nations that have nurtured S&T based ecosystem have thrived economically and socially, irrespective of their geographical size and demography. As the world is rapidly evolving into a globally connected community, the significance of a robust S&T/R&D ecosystem that propels technological products/services as solutions to common man's need is huge.

Seen together, science and technology with its encompassing breadth of application areas can have overwhelming effect on the humanity, both from a social and economic perspective. A timely weather forecast can not only save lives but also increase yield. Similarly an off-grid clean energy solution not only creates healthier lifestyle for rural population but also adds to nation's output by increasing productivity and quality of life.

Various governments across the globe have started focusing on policy measures that makes the S&T/R&D ecosystem conducive. The private sector has also come forth in playing a catalyzing role by bringing marketable products/services that are technology-based and offers affordable and accessible solutions.

It is in this context that it becomes imperative that global players come together to discuss areas of policy interventions and market dynamics that shall drive the S&T/R&D agenda of the government and the private sector. The role of academics in nurturing this ecosystem is also of significant importance.

About the Summit

Global R&D Summit 2017, a two-day integrated conference, exhibition and award function, to be held from 6th - 7th April, 2017 at The Lalit Ashok Bangalore, Kumara Krupa High Grounds, Bengaluru, will be a magnanimous milieu of local and global experts and institutions from industry, academia, government, bilateral/multilateral agencies, funding organisations and associated establishments that constitute the technology-based startup ecosystem.

Accomplished individuals from India and across the globe, comprising policy-makers, startup leaders, innovators, investors and entrepreneurs from various sectors and areas of specialization will be brought together to exchange knowledge, experiences and best practices in management and strategy, delivered through a mix of plenary addresses, panel discussions, presentations and workshops.

The event also aims to create a unique networking ground for people to explore new collaborations, refresh existing ones and showcase projects, programs and demonstrated success stories to connect with players and stakeholders of the startup community.

Summit Objectives

- Explore avenues of cross country partnerships with Indian R&D-based enterprises
- Capture global trends in technology management and strategy
- Connect local and global research & development community for collaborative engagement
- Create avenues for industry-academia-government partnerships
- Promote best practices in financing, strategy, and leadership
- Advance progressive ideas for policy reforms and regulatory environment
- Build capacities for market assessment and rapid commercialization of research

Who Should Attend

- Entrepreneurs and Members of the Indian R&D Ecosystem
- Technology Heads from Industry, Academia and Government Institutions
- Policy Makers and Administrators From Central/State Governments
- Heads and Senior Officials of Foreign Missions in India
- Academicians, Faculty Members and Researchers
- Senior Members from Private Equity Firms, Venture Capital & Institutional Funders
- Scientific Program Managers from Bilateral and Multi-lateral Donor Agencies
- Innovators, Entrepreneurs & Evangelists

6th April 2017

R&D Awards 2017

In concurrence with Global R&D Summit 2017, FICCI will also present its annual 'FICCI R&D Award 2017'. These awards are presented in order to identify and acknowledge cutting-edge R&D happening in India across industry, academia and government research establishments, and create an open, equitable and competitive environment for institutions and professionals to engage with each other. They are one of the most coveted and sought-after annual award for corporates, academic institutions, government labs and autonomous/non-profit organisations engaged in research and development across various sectoral domains.

'Catapult' Awards 2017

Considering the emerging role of start-ups/new ventures in the long-term development of Indian economy and the underlying need to aggressively promote research-driven innovations within this ecosystem, a special class of award, titled - 'FICCI R&D Catapult Awards 2017' will also be presented this year to distinctly recognise notable achievements in research and development by start-up firms of the country.

This special category of award is exclusively reserved for start-up firms which are registered and having operations within India for not less than two years and having annual turnover not exceeding ₹ 1 Crore, as on March 31, 2016.

ABOUT THE ORGANISERS

Established in 1927, FICCI is the largest and oldest apex business organisation in India. Its history is closely interwoven with India's struggle for independence, its industrialization, and its emergence as one of the most rapidly growing global economies.

A non-government, not-for-profit organisation, FICCI is the voice of India's business and industry. From influencing policy to encouraging debate, engaging with policy makers and civil society, FICCI articulates the views and concerns of industry. It serves its members from the Indian private and public corporate sectors and multinational companies, drawing its strength from diverse regional chambers of commerce and industry across states, reaching out to over 2,50,000 companies.

FICCI provides a platform for networking and consensus building within and across sectors and is the first port of call for Indian industry, policy makers and the international business community.

सत्यमेव जयते

Department of Science and Technology
Government of India

The Department of Science and Technology, Government of India is mandated to strengthen "Research and Development" base of the country through organizing, coordinating and promoting Scientific & Technological activities. It is the main public policy support body for Science & Technology. The Department is also the major agency in the country for promotion of basic sciences with a share of nearly 50% of Extra Mural funding of research projects. The Department plays a critical role in the technology development programmes relating to key sectors as well as in the development of International Cooperation in Science and Technology. The Department is promoting international collaborative R & D in various areas of Science & Technology through bilateral collaborative programmes with about 80 countries as well as through multilateral arrangements. Popularization of science, relating science to society, promotion of entrepreneurship, National Resources data management and generation of databases and initiatives targeting empowerment of women through applications of Science and Technology form important areas of focus for planned interventions by the Department. The Department has been collaborating with many other socio-economic ministries in the Government and Science and Technology Councils of various State Governments. The Department has been supporting an array of autonomous institutions engaged in basic research, technology forecasting, laboratory accreditation etc.
